

City of Golden Memorandum

To: Planning Commission
From: Rick Muriby, City Planner
Date: March 13, 2008
Re: March 19, 2008 Study Session: Sustainability Discussion

One of the primary discussion topics for March 19th, 2008 involves addressing the Council's sustainability goals, outlined in Council Resolution 1793. City Staff has developed an initial list of ideas to address those goals that pertain to land use policy, and is looking for Planning Commission direction regarding the refinement of this list. Future discussions can then focus on more specifics for each of the seven land use goals.
